

**Title**

PROCEEDINGS OF THE WILDLIFE-FORESTRY MODELING WORKSHOP

**Model Forest**

Western Newfoundland Model Forest

**From**

October 1994

**To**

January 1995

**Keywords**

Integrated Resource Management, Wildlife, Habitat, Modeling

**Objective**

To provide information to wildlife biologists on aspects of vegetation supply modeling, the incorporation of wildlife models and vegetation supply models into a DSS, and discussion on habitat suitability index (HSI) development for selected species.

**Description**

The wildlife-forestry modeling workshop was held from October 24-26, 1994 in Corner Brook. The workshop served to educate wildlife biologists on the topic of modeling. Speakers from Newfoundland, New Brunswick, Ontario and Utah were present to share their expertise and experiences with wildlife habitat modeling.
